

Dylan Kwok

Fremont, California | (341)-500-2788 | dylankwok28@gmail.com | earthrise8.github.io/dylankwok/

Education

Irvington High School

Fremont, CA

GPA: Unweighted: 3.73

SAT: 1500 (Math: 750, EBRW: 750)

Relevant Coursework: Honors Chemistry , Algebra 2, and Trigonometry, AP Physics

Technical Experience

Founder & Systems Lead, Untitled Rocketry

Dec 2023 – Present

- Led 10-member team to American Rocketry Challenge nationals
- Designed and simulated rockets focusing on aerodynamics, stability, and payload constraints
- Validated flight simulations with real-world test data
- Trained members in systems integration, propulsion, and safety regulations
- Mentored 20+ students through high-power rocketry certification

Technical Engineer, Untitled Racers (Hydrogen Grand Prix)

Aug 2025 – Present

- Designed and built hydrogen-powered vehicle (World Finals qualifier)
- Optimized energy efficiency, strength-to-weight ratio, and performance
- Analyzed tradeoffs between power output, drag, and energy consumption

Director of Rocketry, Irvington High School Maker Club

Aug 2024 – Present

- Led 40-member team focused on aerospace and mechanical design
- Developed modular 3D-printed rocket adaptable to varying flight conditions
- Taught FDM manufacturing and rapid prototyping workflows
- Contributed to Mach 1-capable student rocket project

Founder, Fremont Student Makers (STEM Nonprofit)

Aug 2025 – Present

- Founded nonprofit supporting STEM programs across 3 schools (50+ students)
- Leading development of student-built 1U CubeSat (launch 2027)
- Collaborating with Cal Poly Pomona on modular satellite design
- Manage operations, fundraising, and cross-team coordination

Work Experience

Robotics Instructor, Robotics and Kids

Jun 2024 – Aug 2024

- Taught robotics, Python, and control systems to 16 middle school students
- Led hands-on projects involving sensors, actuators, and basic automation systems
- Mentored students through debugging and iterative design processes

Skills

Technical

3D Modeling, Python, Java, 3D printing, HTML, CSS, Javascript

Languages

Spanish (proficient in speaking, reading, and writing)
